

THE CENTER
at Sierra Health Foundation

**Medication Assisted Treatment Funding Awards
Stimulant Use Prevention and Treatment in Communities of Color
2021-2022**

Stimulant Use Prevention funding awards support organizations to implement stimulant use prevention services specifically for and within communities of color throughout California.

Alcohol Justice

Marin County

\$100,000.00

To determine knowledge and attitudes toward methadone and cocaine use in the Latinx Canal District community and reduce the stigma of substance use disorder in Marin County through direct neighborhood outreach and referrals to culturally competent prevention services.

Alliance Medical Center, Inc.

Sonoma County

\$100,000.00

To implement a stimulant use prevention and stigma reduction campaign through which outreach will be focused on Latino men who have sex with men and young Latina women with trauma histories who are at an increased risk for stimulant use in Northern Sonoma County.

APLA Health & Wellness

Los Angeles County

\$50,000.00

To conduct a harm-reduction workshop series and monthly drop-in group for Black/African-American or Latino men who have sex with men who use methamphetamines in Los Angeles County.

Bay Area Community Health

Alameda County

\$100,000.00

To increase understanding of stimulant use disorder, treatment and available resources through culturally appropriate outreach to Asian, Black, Latinx and Middle Eastern communities within the Southern Alameda County service area.

Bi-Bett

Contra Costa County

\$100,000.00

To leverage the DUI program at The Dawn Center in Pittsburg, Contra Costa County, to engage, educate, screen and refer people of color into stimulant use treatment programs.

The MAT Access Points Project is funded through the Department of Health Care Services' California MAT Expansion Project and is administered and managed by The Center at Sierra Health Foundation.

Center for Health Justice

Los Angeles County

\$100,000.00

To work within locked settings to facilitate in-custody and post-incarcerated group counseling sessions to include information and referrals to stimulant use treatment, MAT and other referrals, HIV/STI testing, and support groups for individuals of color in Los Angeles County.

CLARE | MATRX

San Bernardino County

\$100,000.00

To address the stimulant use crisis with Substance Use Navigator by supporting and expanding prevention, education and stigma reduction, as well as increased access to treatment and recovery services for people of color and their families in San Bernardino County.

Community Health Project L.A. (Public Health Foundation Enterprises, dba Heluna Health)

Los Angeles County

\$100,000.00

To increase access to prevention and education materials on substance use disorder to reduce stigma in communities of color by including a series of online trainings and offering Safer Stimulant supply kits through outreach efforts in Los Angeles County.

Dignity Health Foundation Inland Empire

San Bernardino County

\$99,824.00

To support and expand prevention services with a Substance Use Navigator in the emergency department to provide stimulant use disorder education, stigma reduction, harm reduction and treatment to communities of color in San Bernardino County.

Face to Face – Sonoma County AIDS Network

Sonoma County

\$100,000.00

To provide direct client services, train peer advocates, train partner agencies, and conduct outreach and education for stimulant use prevention with underserved communities in Sonoma County.

Fighting Back Partnership, Inc.

Solano County

\$100,000.00

To provide culturally relevant education, stigma reduction and focused outreach to prevent negative health outcomes associated with substance use disorder, opioid use disorder and stimulant use disorder in Black, Hispanic/Latinx and Asian-American families in Solano County.

Fresno Barrios Unidos

Fresno County

\$100,000.00

To implement a campaign to destigmatize substance use disorder and stimulant use disorder and treatment access among Latinx youth, youth of color and young adults, refer community members to healing programming and treatment, and conduct harm-reduction-based education sessions in Fresno County.

The MAT Access Points Project is funded through the Department of Health Care Services' California MAT Expansion Project and is administered and managed by The Center at Sierra Health Foundation.

Fresno County Economic Opportunities Commission, dba Fresno EOC

Fresno County

\$100,000.00

To increase awareness of and access to stimulant use prevention services for communities of color and LGBTQ+ people in Fresno County.

Friends Research Institute

Los Angeles County

\$100,000.00

To deploy a stimulant use disorder prevention and treatment educational campaign in under-resourced communities of color in Los Angeles County.

Healthy Community Forum for the Greater Sacramento Region, dba Sacramento Covered

Sacramento County

\$100,000.00

To develop a culturally responsive, trauma-informed, evidence-based curriculum that will support expanded prevention, stigma-reduction and treatment/recovery services for people with stimulant and substance use disorder in communities of color in Sacramento County.

Hmong Youth and Parents United

Sacramento County

\$99,990.00

To create educational videos and films focused on Hmong and other Asian Pacific Islander communities on the effects of substance and stimulant use, and highlight available local resources that offer prevention and rehabilitation services in Sacramento County.

Judahh Project

Sacramento County

\$96,260.00

To launch a stimulant use prevention educational awareness campaign and community outreach events to reach the African American community in Sacramento County.

K'ima:w Medical Center

Humboldt County

\$100,000.00

To conduct outreach and education on stimulant use prevention to help reduce the stigma in the Hoopa Valley Indian Reservation and surrounding communities of Humboldt County.

Lily of the Valley Emmanuel Church of Jesus Christ

Kings County, Fresno County, Tulare County

\$100,000.00

To expand education, training, community awareness, mentoring and collaboration with stimulant use disorder treatment centers to serve communities of color in Kings, Fresno and Tulare counties.

Loving Home Hospice for Children, Inc.

Los Angeles County, Ventura County

\$100,000.00

To expand knowledge of substance use disorders and opioid use disorder for African American and Latinx youth and families in Los Angeles and Ventura counties by providing direct outreach, seminars and educational materials.

The MAT Access Points Project is funded through the Department of Health Care Services' California MAT Expansion Project and is administered and managed by The Center at Sierra Health Foundation.

Multi-Ethnic Collaborative of Community Agencies (MECCA)

Orange County

\$100,000.00

To implement the Stimulant Use Disorder Prevention Project in partnership with nine community-based organizations focused on communities of color to increase awareness of stimulant treatment services in Orange County.

National Asian Pacific American Families Against Substance Abuse

Los Angeles County

\$100,000.00

To increase the Asian American community's understanding of stimulant use disorder, reduce community and individual stigma through increased recognition of the chronic nature of the disease of addiction, and increase knowledge of medication assisted treatment in Los Angeles County.

Newstart Medical Group, Inc.

Placer County

\$100,000.00

To increase Latinx referrals to treatment through a stigma-reducing digital media campaign and access to culturally and linguistically tailored stimulant use prevention programs in Placer County.

Northeastern Rural Health Clinics

Lassen County

\$99,064.06

To strengthen and expand prevention, treatment and recovery services for individuals who are at risk for substance and stimulant use disorders and their families in Lassen County.

Pomona Valley Hospital Medical Center

Los Angeles County

\$100,000.00

To conduct outreach to improve awareness, provide prevention education and increase referrals to resources for stimulant use disorder to the Hispanic, Black and Asian communities in Los Angeles County.

Reach Out West End, Inc.

Riverside County, San Bernardino County

\$98,199.40

To develop leadership academies within Inland Empire community coalitions that empower community members of color to act as peer-to-peer advocates on stimulant use prevention in San Bernardino and Riverside counties.

Roots Community Health Center

Alameda County, Santa Clara County

\$100,000.00

To educate and develop patient-centered culturally appropriate stimulant use disorder materials to raise awareness and gather feedback from impacted communities of color on best ways to reach them in Alameda and Santa Clara counties.

SAC Connect
Sacramento County
\$87,584.00

To increase stimulant use community awareness in the African-American community through educational programming, training workshops and wellness events in Sacramento County.

Saint Francis Foundation on behalf of Saint Francis Memorial Hospital
San Francisco County
\$98,890

To improve care for stimulant use patients of color adapted to address racial inequities and updated referral protocol, provide a go-pack for our care team, and strengthen partnerships with community-based organizations for better patient outcomes in San Francisco County.

Santa Barbara Neighborhood Clinics
Santa Barbara County
\$100,000.00

To increase outreach, education and referrals to address stimulant use disorders, and increase access to medication assisted treatment services by expanding the Opioid Media and Education Campaign to Latinx communities in Santa Barbara County.

The Center for Collaborative Planning (Public Health Institute)
Statewide
\$100,000.00

To implement a prevention social media campaign through which Black women across California can share their stories and access information and resources to address their exposure to and/or use of stimulants.

The Gifted Living Institute, Inc.
Los Angeles County
\$100,000.00

To increase access to prevention and stimulant use disorder education and community and treatment resource information, and promote healthy behaviors for people of color residing in public housing developments in Los Angeles County.

The Regents of the University of California, Irvine
Orange County
\$100,000.00

To improve screening and education materials for patients encountering the health care system in Orange County who struggle with stimulant use by implementing a Substance Use Navigator to serve as a patient advocate in the emergency department, hospital, health care networks and outpatient clinics.

The Source LGBT+ Center
Fresno County, Kings County, Tulare County
\$100,000.00

To decrease stigma and reduce rates of stimulant use in the LGBTQ+ community by sharing personal stories, providing prevention education and a social media presence, offering peer support and relapse prevention, increasing awareness of risk factors for LGBTQ+ BIPOC communities, providing access to HCV/HIV screening, and making referrals to treatment services in Tulare, Kings and Fresno counties.

The MAT Access Points Project is funded through the Department of Health Care Services' California MAT Expansion Project and is administered and managed by The Center at Sierra Health Foundation.

The Wall Las Memorias Project**Los Angeles County****\$100,000.00**

To build on substance use prevention efforts in Los Angeles County by launching a stimulant-specific community education and engagement prevention project, focusing on men who have sex with men and trans women of color by providing support groups, town hall conversations, a social media campaign, connections to substance use treatment services, and a harm reduction summit to share information from trusted messengers.
